

On the occasion of TANA Conference 2007 SIFF extends warm wishes to fellow NRIs.

While we celebrate this joyous reunion of Telugu people from all over North America, we request your attention to some serious issues affecting NRIs:

- Indian Penal Code Section 498A and related anti-dowry laws are being increasingly misused in India
- Unsuspecting NRIs who arrive in India are being arrested, ill-treated and exploited for money, based on false cases
- Some NRIs have lost their jobs, or have had to give them up, and relocate to India to fight prolonged cases to prove their innocence
- Innocent NRIs are also being equated to dangerous international criminals, and are being threatened of extradition
- Misuse of laws is severely impeding the progress of talented, intelligent and resourceful Indian men and women world over
- Misuse of laws is ruining the peace of our beloved families, and is especially affecting elders in India

We appeal to the Government of India to stop this “legal terrorism”, and ensure justice to NRIs who have enormous financial, intellectual and emotional investment in India.

We appreciate your support in spreading awareness and strengthening our efforts.
